Strategije uresničevanja poslovne vizije koncerna slonijo na naslednjih razvojnih elementih:

#### Intenzivna in integrativna rast

Koncern bo dosegal rast na dva načina:

1. z večanjem dodane vrednosti na zaposlenega in s posodabljanjem sedanjih logističnih zmogljivosti;
2. s pridobivanjem novih logističnih zmogljivosti prek prevzemov in nakupov družb na področju srednje in jugovzhodne Evrope.

S predvideno rastjo bo koncern Intereuropa zagotavljal dolgoročno uspešnost poslovanja in finančno stabilnost družbe.

The strategies of implementation related to the business vision of the Group are based on the following development elements:

#### Intensive and integrative growth

The growth of the Group will be ensured by two means:

Razvojna strategija koncerna je na tem področju usmerjena k izpolnjevanju potreb konkretne stranke in dograjevanju celovite ponudbe logističnih storitev.

### **Razvoj kadrov**

Usmerjeni smo k uporabi najsodobnejših informacijskih tehnologij v vseh procesih poslovanja, da bi zagotovili zanesljivost, hitrost, varnost in ekonomičnost logističnih storitev.

### **Integrated logistics services**

The Group is adapting its operation in line with new market requirements by transforming the existing services offer of a conventional freight forwarder into a company offering complete logistic services. The development strategy of the Group aims to satisfy the needs of individual customers and upgrade the integrated logistic services.

**2.1 PISMO PRESEDNIKA UPRAVE**

*Spoštovani delničarji, cenjeni poslovni partnerji!*

*Razvojne vizije pokažejo pravo vrednost, ko se iz sprejetih dokumentov selijo v resničnost. Intereuropini načrti za prihodnost so z dosežki leta 2000 zanesljivo pridobili na teži. Leto je namreč potekalo v izrazitem izvajanju začrtanih razvojnih smernic, s čimer je družba prehajala iz špediterskega podjetja v središče logističnega koncerna in ob tem širila obseg in uspešnost poslovanja.*

**Rast prihodkov in uspešnosti poslovanja Skupine Intereuropa**

*Skupina Intereuropa je načrtovano mejo rasti preseгла na obeh ključnih področjih. Kosmati donos iz poslovanja je v primerjavi z letom prej narasel za 22 odstotkov vse do vrednosti 33,2 milijarde tolarjev, dobiček iz poslovanja pa je bil višji za 7 odstotkov in je segel do višine 1,5 milijarde tolarjev. V letu 1999 so visok čisti dobiček odločilno oblikovale prodaje finančnih naložb. Toliko bolj spodbudno je, da smo v letu 2000 v poslovni skupini ustvarili le za 3 odstotke manj čistega dobička ali 2,015 milijarde tolarjev, k čemur so z dobrim poslovanjem prispevale skoraj vse povezane družbe. Rast prihodkov smo nadaljevali z uspešnim prevzemom družbe STC Celje d.d. in s konsolidacijo poslovanja naših družb na Hrvaškem, kjer smo v večini družb povečali svoj delež in se približali 100-odstotnemu.*

*Naravnost v celovito logistično ponudbo se odraža v upadanju deleža carinskega posredovanja, ki ga nadomeščajo drugi logistični produkti. Tako narašča vloga logističnih storitev, kot so zbirni promet, storitev 24 ur, zračni promet, UPS, skladiščenje in distribucija.*

**Razvojni program do leta 2005**

*V letu 2000 je nadzorni svet družbe Intereurope d.d. potrdil program razvoja Koncerna za mandatno obdobje uprave 2001 - 2005. V ospredju ostajata krepitev Skupine Intereuropa, ki si želi priboriti položaj srednje velikega ponudnika logističnih storitev v Evropi, in usklajen razvoj - storitev, kadrov, organizacije, tehnologije in koncernskih enot.*

*Začrtano 5-odstotno letno rast prodaje bomo dosegali tudi s prevzemi družb zunaj Slovenije, možni pa so tudi prevzemi v slovenskem prostoru. Uspešnost poslovanja bo spremljalo naraščanje dobička iz poslovanja, k ciljnemu 10,5-odstotnemu bruto donosu na kapital pa bodo tudi v prihodnje prispevale investicije v finančne naložbe, ki bodo zagotavljal visok finančni prihodek.*

*Intereuropa bo prevzemala nove logistične funkcije in področja poslovanja postopoma oblikovala v divizije. Zagotovili bomo pogoje za prost pretok kapitala, znanja in informacij med vsemi enotami znotraj koncerna.*

**Nosilci kakovosti in ekspertnih znanj**

*Intereuropa bo ponudnik celovitih logističnih storitev, a prav tako tudi pomembno okolje za razvoj in delo logističnih strokovnjakov. Odločilno vlogo v prihodnosti koncerna bodo namreč imeli kadri, nosilci kakovosti in ekspertnih znanj. Njihov razvoj bo temeljil na izboljšanjem sistemu motiviranja, ki bo upošteval rezultate dela in pogoje za njihovo doseganje.*

**Širiti poslovno mrežo proti jugovzhodu**

*Medtem ko je bil v letu 2000 precejšen del investicijskih sredstev namenjen obnovi voznega parka, bomo v letu 2001 z investicijami pospešili širitev naše poslovne mreže. Nadaljevali bomo razvoj poslovne mreže na Hrvaškem, končali investicijo v Zagrebu in pridobili nove skladiščno-pretovorne zmogljivosti, prav tako bomo razširili zmogljivosti na Reki. Pred nami je učvrstitev poslovne mreže v Bosni in Hercegovini, kjer načrtujemo prevzem ene izmed špediterskih družb. Z razvojem obeh naših družb in prevzete družbe želimo po Hrvaški postati vodilni ponudnik logističnih storitev tudi v Bosni in Hercegovini. V Makedoniji smo že pridobili potrebno zemljišče za skladiščno-pretovorne zmogljivosti in začnemo z gradnjo v Skopju.*

## 2.1 LETTER OF THE PRESIDENT OF THE MANAGING BOARD

*Respectable shareholders, esteemed business partners!*

*The development visions show their true value when converted from the adopted papers into reality. The objectives of Intereuropa laid out for the future carried weight through achievements of 2000. The year saw an increase in the implementation of development directives aiming at transformation of the company from the freight forwarding company to a Logistic Group Centre through broadening the range of the services offered and successful operation.*

### **Growth of income and successful operation of the Intereuropa Group**

*The Intereuropa Group exceeded the planned year-to-year growth in two core sectors. This applied to both, the gross operating profit increased by 22 percent up to the amount of 33.2 billion tolar compared to the previous year and the operating income rose 7 percent up to the amount of 1.5 billion tolar. In 1999 a high net profit was primarily attributable to the sales of financial investments. The results achieved were even more encouraging, as in the year 2000 the net profit of the Intereuropa Group was SIT 2.015 billion, a 3 percent decrease, only due to favourable operating income of almost all associated companies. The ongoing growth of income was followed by a successful takeover of the company STC Celje d.d. and consolidation of business operations related to our companies in Croatia, where we managed to increase our shares in order to come close to 100 percent. The directive guideline to provide an integral logistic offer resulted in a decreased customs clearance being substituted by other logistic products. Other logistic services showed therefore an increasing trend like groupage services, 24 hours services, airfreight transport, UPS, warehousing and distribution.*

### **Development programme until 2005**

*In 2000 the Supervisory Board of the company Intereuropa d.d. adopted the Development Programme of the Group for the mandatory period of the Managing Board from 2001 to 2005. The outline of objectives aimed at enhancing the Intereuropa Group position as a medium logistics provider services in Europe and the development in line with services, human resources, organization, technology and concern units.*

*The 5 percent year-to-year growth ratio will be also achieved by the takeovers of the companies outside Slovenia, but the takeovers in the Slovene territory might be expected. The successful operation will be followed by operating profit increase to achieve the target of 10.5 percent gross return on capital set, through future financial investments providing a high financial income.*

*Intereuropa will take over new logistic services and business operation sectors by progressive transformation into divisions. We shall ensure a free flow of capital, knowledge and information in all units within the Group.*

### **Quality of services and expert knowledge**

*Intereuropa will provide integral logistic services as well as an important development environment for the operation of experts in the field of logistics. In future the human resources will have a key role as providers of quality and expert knowledge.*

*Their development will be based on an improved system of motivation considering their work results and conditions to be achieved.*

### **Expansion of business operation network towards the South-East**

*In 2000 the major part of the investment funds was dedicated to the renewal of fleet, while in 2001 our business operation network will be increased through investments. We shall continue to develop our business operation network in Croatia, complete our investment in Zagreb and acquire new warehousing and unloading capacities, as*

**Obvladati blagovne tokove na osi Španija - Moskva**

K strateškim usmeritvam družbe sodi obvladovanje blagovnih tokov na osi med Španijo, severno Italijo, Slovenijo, Hrvaško in državami SND, zlasti proti Moskvi, kjer smo v lanskem letu odprli družbo Intereuropa-East. Blagovnemu toku na tem območju lahko ponudimo konkurenčno možnost, zato načrtujemo širitev mreže tudi zahodno in severno od Slovenije. V Italiji bomo, s prevzemom manjše špeditorske družbe, pridobili nove zmogljivosti, v načrtih pa imamo tudi nakup podjetja na Češkem. Z ojačanjem svojega položaja v Severni Italiji bomo povečali zajem blaga iz italijanskega industrijskega bazena in obogatili obseg blagovnih tokov v smeri proti vzhodu. Praga pa je po naših ocenah točka, s katere je mogoče večji blagovni tok usmeriti v jadranska pristanišča.

**Informacijsko podpreti nove logistične storitve**

Sodobna in celovita logistična ponudba zahteva ustrezno informacijsko podporo. Ob širitvi poslovne mreže bomo nadaljevali stalna vlaganja v informatiko, s katerimi smo že podprli celoten poslovni proces, informacijsko podporo pa potrebujejo še nekateri novi produkti, predvsem 24 ur, Intereuropa Express in zbirni promet. Z informacijskimi rešitvami želimo nadgraditi povezave s kupci, finančnimi ustanovami in z vsemi udeleženci v verigi, ki spremlja logistični proces, ter s partnersko mrežo v tujini. Sledili bomo globalnemu premiku k elektronskemu poslovanju, kjer smo prve korake že naredili na področju finančnih in carinskih postopkov, čakajo pa nas še večji napredek v poslovanju z ostalimi člani transportne verige in s tujimi partnerji.

**Skupen uspeh zaposlenih, delničarjev in poslovnih partnerjev**

V zadovoljstvo nam je, da s skupnimi dosežki vračamo zaupanje delničarjem, saj nas rezultati poslovanja v letu 2000 ponovno uvrščajo med najbolj uspešna slovenska podjetja. Dosegli smo jih ob prizadevanjih zaposlenih in s kakovostnim sodelovanjem s poslovnimi partnerji, za kar se v imenu uprave vsem zahvaljujem.

Prepričan pa sem, da bomo tudi z rezultati poslovanja v letu 2001 utrdili Intereuropin ugled uspešnega mednarodnega logističnega koncerna z velikimi razvojnimi možnostmi.

**Jože Kranjc, univ. dipl. prav.**

Predsednik uprave

well as enlarge our capacities in Reka. We envisage strengthening the operation network in Bosnia and Herzegovina through takeover of a freight forwarding company. By strong development improvement of our both companies and the company taken over, our aim is to become the leading logistics provider in Bosnia and Herzegovina, too. In Macedonia we have already acquired a land needed for warehousing and handling capacities and we have just initiated construction works in Skopje.

#### **Control of goods flow in the axis Spain-Moscow**

The strategic directives of the company encompass the control of goods flows between Spain in Northern Italy, Slovenia, Croatia and countries in the direction of Moscow where the company Intereuropa East was established last year. We can provide competitive option to the goods flow in this area; therefore we plan to expand the network from the North and South of Slovenia. In Italy we shall acquire new capacities by takeover of a smaller freight forwarding company, while we plan to purchase a company in Czech Republic. By strengthening our position in North Italy we shall broaden the collection of goods from the Italian industrial pool and increase the volume of goods flow directed towards the East. We believe Prague to be the point designated to direct this flow to the Adriatic ports.

#### **IT support of logistic services**

The advanced and complete logistic offer requires the adequate IT support. Through expanding the business operation network we shall continue step-by-step investments into the informatics that already support the complete operational process, while some other new products need to be supported by computer-assisted management, primarily 24 hours, Intereuropa Express and groupage services. By means of IT solutions we wish to upgrade the connections with our customers, financial institutions and all participants in a chain that accompanies a logistic process, and partner network abroad. We shall follow up a global trend in e-business solutions, notwithstanding the first steps have been already made in the area of finances and customs proceeding. In operation with other members of this chain and foreign partners the outstanding improvement in business operation is expected.

#### **Mutual success of employees, shareholders and business partners**

It is our pleasure to reinforce faith of our shareholders by mutual achievements due to the results in 2000 ranking us again among the leading companies in Slovenia. These results have been achieved through joint efforts of all employees and productive cooperation with business partners. On behalf of the Managing Board, I would like to thank all of you.

I am convinced that also results in 2001 will contribute to strengthen the reputation of Intereuropa as the international logistics Group with large development possibilities.

**Jože Kranjc, B.S.L.**

President of the Managing Board

## 2.2 PISMO PREDSEDNIKA NADZORNEGA SVETA

*Nadzorni svet Intereurope d.d. je leta 2000 sprotno spremljal razvoj in upravljanje družbe. Družba je povečala prihodke in dobiček iz poslovanja, v čemer se po mnenju nadzornega sveta kaže učinkovitost in dolgoročna stabilnost poslovanja. Do doseženih rezultatov se je nadzorni svet med letom in ob obravnavi zaključnega poročila pohvalno opredelil. Kritičen pa je bil do pomanjkljivosti in počasnega prilagajanja sodobnim potrebam trga.*

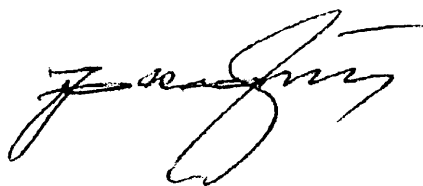

*Nadzorni svet je pred koncem leta imenoval novo Upravo. Z njenim imenovanjem sta zagotovljena kontinuiteta in uresničevanje zastavljene razvojne vizije. V strategiji razvoja Intereurope d.d., ki izhaja iz programa razvoja, so opredeljene strategije razvoja na domačih in tujih trgih ter strateška povezovanja v evropskem prostoru. Do načrtovanega povezovanja z Luko Koper d.d. v Globalni logistični servis ni prišlo. Nadzorni svet je dal pobudo, da se, ne glede na razhajanja, ki so nastala, proučijo tudi možnosti ustrežnejše oblike partnerskega povezovanja in sodelovanja obeh družb. Brez dvoma sta celovita logistična ponudba in globalna konkurenčnost nujni za nadaljnji razvoj Skupine Intereuropa, zato bo družba tudi v prihodnje iskala možnosti za strateško povezovanje v mednarodnem prostoru ter utrjevanje svojega položaja predvsem na Balkanu.*

*Novi razvojni program temelji na skladnem razvoju vseh dejavnosti in dolgoročnosti, kar je po mnenju nadzornega sveta še posebej pomembno pri sprejemanju kadrovskih ukrepov za njegovo realizacijo. Pri tem bo treba še dosledneje realizirati sistem nagrajevanja, ki bo stimuliral predvsem delo posameznika. To področje je skupaj z dvosmerno komunikacijo z zaposlenimi, ključnega pomena. Prepričani smo, da bodo obsežnejša vlaganja v sposobnost zaposlenih in vzpodbujanje prevzemanja pooblastil in odgovornosti prinesla še večje rezultate.*

*Izkušnje in rezultati preteklega leta kažejo, da je Skupina Intereuropa odločena krepiti lastni razvoj in vzpodbujati razvoj svojih trgov. Dosežki povezanih družb kažejo na to, da sta bila usmeritev in investiranje v preteklih letih pravilna, zato njihove poslovne rezultate lahko primerjamo z rezultati družbe matere. Dokaz je predvsem vodilno mesto, ki ga je Intereuropa dosegla na Hrvaškem na področju špedicije, hkrati pa naredila viden premik v smeri razvoja logističnih storitev.*

*Družba Intereuropa in njena uprava sta za svoje delo v letu 2000 prejeli več različnih priznanj. V nadzornem svetu se jim pridružujemo z mnenjem, da bo potrebno v bodočnosti ta priznanja potrjevati. Jamstvo so zastavljeni programi, ki koncernu Intereuropi z uskladitvijo vizij in strategij vseh družb zagotavljajo dolgoročni razvoj ter donosno poslovanje. Prepričani smo, da bo Uprava skupaj z vsemi zaposlenimi v Intereuropi uspešno poslovala tudi v bodoče, v zadovoljstvo lastnikov in zaposlenih v Intereuropi d.d..*

## 2.2 LETTER OF THE SUPERVISORY BOARD CHAIRMAN

*In the year 2000 the Supervisory Board of Intereuropa d.d. followed up currently the development and management of the company. The company increased the income and operating profit by achieving the effective and long-term operation stability. During the year the Supervisory Board discussed the result, adopted the Annual Report and expressed its appreciation of the latter. Nevertheless it blamed shortcomings and slow adaptation to modern requirements of the market.*

*The Supervisory Board appointed the new Management Board by the end of the year. The continuation and implementation of the development vision are ensured by its appointment. In the development strategy of Intereuropa d.d. resulting from the development programme, the development strategic directives related to domestic and foreign markets were set forth. We failed in the implementation of integration to the Luka Koper d.d. to provide the Global Logistic Service. Notwithstanding the differences of opinion, the Supervisory Board proposed to study the possibilities to provide other forms of mutual association and cooperation between the two companies that might be more productive. There is no doubt that the integral logistic offer and global competitiveness are prerequisites for the follow up development of the Intereuropa Group, therefore the company will continue to enhance various possibilities for the strategic association in the international area as well as to strengthen its position in the Balkans, primarily.*

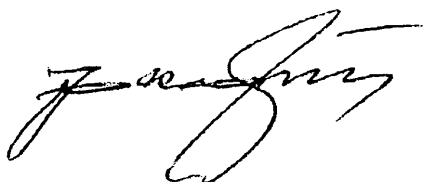

*The new development programme is based on a development in accordance with all activities and long-term prospects being of the utmost importance for its implementation by taking measures related to human resources management. The premium wage system needs to be observed strictly to stimulate a productivity incentive of each individual. This system together with a bilateral communication between employees represents a key issue. We are convinced that the substantial investments the capacity of employees including incentives to take over authorizations and responsibilities will bring about major results.*

*The experiences and results of the previous year have shown, that the Intereuropa Group is determined to improve its own development and to encourage the development of its markets. The achievements of the associated companies prove that this orientation and investment of the previous years has been correct. The leading position achieved by Intereuropa in the field of freight forwarding in Croatia through a change into the direction of logistic services.*

*The company Intereuropa and its Managing Board was awarded various recognitions conferred on operation in the year 2000. We, the members of the Supervisory Board would like to join our expression of appreciation by saying that in future these awards need to be ratified. We are convinced that the Managing Board together with all employees in Intereuropa will continue to operate successfully in future to the mutual satisfaction both, the owners and employees of Intereuropa d.d. .*

POSLOVNO POROČILO  
REPORT AND ACCOUNTS

### **Premagamo vse razdalje.**

Svet je velik, ko iščemo najprimernejšo med številnimi potmi in hkrati majhen, ko sprejmemo odločitev in premeščamo blago s celine na celino. Za vsako pošiljko ugotovimo najbolj ekonomičen način distribucije.

### **Let's beat all distance.**

The world is both, wide when we are looking for the most suitable route among forwarding ones and small when making decisions and routing cargoes from a continent to continent. We estimate the most optimal route of distribution for each consignment.

#### 4.1.2 **Koncern Intereuropa**

Koncern Intereuropa se uspešno prilagaja spremembam na tržišču. Z globalizacijskimi tokovi preraščata špedicija in transport v logistično dejavnost, kjer postaja povezovanje udeležencev logističnega procesa čedalje pomembnejše. Intereuropa je usmerjena k iskanju strateških povezav s primernimi logističnimi podjetji, s čimer se želimo vključiti v globalna logistična omrežja.

#### **Dosežki na področju prodaje in marketinga**

Intereuropa se je tudi v letu 2000 uspešno razvijala in nadaljevala svoja prizadevanja, da bi s svojo ponudbo sledila potrebam kupcev na vseh ciljnih trgih. V prvem polletju lanskega leta smo izpopolnili ponudbo logističnih storitev. Razvili smo novo storitev na področju pakete distribucije "Intereuropa Express" in organizirali direktni kompletni vlak iz Evropske unije in Slovenije v jugovzhodno Evropo ter Bližnji vzhod. Vpeljali smo novi zbirni liniji za Poljsko in južno Nemčijo ter okrepili zbirne linije za Španijo, Italijo, Švico in države bivše Jugoslavije. Povečali smo tudi delež poslovanja stranki prilagojenih logističnih storitev.

#### 4.1.2 **Intereuropa Group**

The Intereuropa Group is adapting successfully to changes in the market. Through global flows the freight forwarding and transport continues its transformation into logistic services as the association of the partners in logistic process is steadily gaining in importance. Intereuropa is oriented to find strategic associations with appropriate logistic companies to enter the global logistic networks.

#### **Achievements in Sales and Marketing**

In 2000 Intereuropa was also developing successfully and continued to implement its mission through meeting the requirements for logistic services to the optimum satisfaction of its customers in all target markets. In the first half of the last year we improved our offer of logistic services. We developed a new service "Intereuropa Express" in the segment of parcel distribution and organized a "direct block train" from the European Union and Slovenia to the South-Eastern Europe and Near East. We introduced two new groupage lines for Poland and South Germany and reinforced the existing groupage lines for Spain, Italy,

V lanskem letu sta se koncernu priključili še dve družbi. Maja 2000 je Intereuropa uspešno prevzela celjsko družbo Skladiščno-transportni center STC Celje d.d.. V Moskvi smo že pred šestimi leti odprli predstavništvo, na začetku septembra pa smo ustanovili novo podjetje Intereuropa - East d.o.o. in razširili mrežo poslovnih enot v državah jugovzhodne in vzhodne Evrope.

Na Hrvaškem smo končali z odkupom deležev v povezanih družbah. V lanskem letu smo posodobili vozni park in opremili vozila z najsodobnejšo

telekomunikacijsko tehnologijo (GPS in SMS) za satelitsko spremljanje vozil. Prav tako smo povečali skladiščne zmogljivosti na Hrvaškem in v Sloveniji.

V Intereuropi uspešno uvajamo elektronsko poslovanje tako znotraj podjetja kot tudi navzven. S kupci in dobavitelji smo vzpostavili pogoje za elektronsko povezovanje. V poslovnih procesih uspešno nadaljujemo z dograjevanjem in izboljševanjem sistema celovite kakovosti.

Switzerland and countries of the former Yugoslavia. We enlarged our share in logistic services tailored to each customer.

Last year two companies joined our company. In May 2000 Intereuropa took over the company Skladiščno-transportni center STC Celje d.d. (warehousing company). Six year ago we opened our representative office in Moscow, while in the beginning of September we established a new company Intereuropa East and expanded our network of branch offices in the countries of South-Eastern and Eastern Europe.

In Croatia we completed the acquisition of shares in the associated companies. We renewed our fleet and equipped our vehicles with the most advanced telecommunication technology (GPS and SMS) for satellite tracking of vehicles last year. We also expanded our warehousing capacities in Croatia and Slovenia.

The e-business is being progressively introduced, both inside and outside of Intereuropa. We managed to satisfy the conditions for electronic connections with our customers and buyers. In our operation processes we continue to upgrade and improve the total quality system.

### Partnerji in kupci

Kakovost v odnosu do kupcev zagotavljamo s hitro, varno, ekonomično, zanesljivo in okolju prijazno logistiko. Medsebojne odnose gradimo na vzajemnem spoštovanju dogovorjenih meril, zato stremimo k zagotavljanju kakovosti vseh udeležencev v logističnem procesu. Kakovost je tako merilo pri gradnji partnerske mreže doma in v tujini, kot tudi pri izbiri dobaviteljev storitev, spodbujamo pa jo z dolgoročnimi poslovnimi odnosi.

Zadovoljstvo kupcev ugotavljamo z raziskavami, ki jih izvajajo v sektorju za marketing. Anketiranja potekajo redno, trikrat na leto, z njimi pa ugotavljamo zadovoljstvo s kakovostjo šestih logističnih produktov. Na rezultate anket se odzivamo z izboljšavami storitev.

### Partners and Customers

The quality related to customers is guaranteed by a quick, safe, economic, reliable and environment friendly logistics. We are establishing and developing mutual relationships with our customers complying with the quality criteria agreed upon between all service providers in a logistic process. The quality, promoted through long-term relationships, remains a prerequisite, both in creating a partner network in our country and abroad, and by selecting suppliers providing services.

We assess the satisfaction of our customers through various market research carried out by the Marketing Sector. These customer satisfaction surveys on six logistic products are performed on regularly basis i.e. three times per year. The feedback results gathered in surveys enable us to improve the efficiency of our services.

#### 4.1.3 Poslovna področja

##### Kompletni nakladi

Poslovno področje kompletni nakladi je v letu 2000 preseglo načrtovane prihodke.

Kompletni nakladi so namenjeni vsem pošiljkam, ki so zaključene transportne enote. Intereuropa organizira prevoze kompletnih tovorov po železnici in po cesti z lastnimi in najetimi vozili. Za prevoze po desetem panevropskem koridorju (Salzburg-Ljubljana-Zagreb-Beograd-Niš-Skopje-Veles-Solun) smo organizirali direktni vlak, ki zagotavlja hitrejši in bolj varen prevoz blaga iz EU in Slovenije v JV Evropo in na Bližnji vzhod. Vlak se sestavi na ranžirni postaji v Ljubljani in nadaljuje svojo pot direktno, brez običajnih postankov na železniških postajah.

Unified cargoes include any consignment occupying the full freight space. Intereuropa offers transportation services of full loads by train or road using its own, or leased, vehicles. We arranged a "direct block train" providing faster and safer transport of goods from the European Union and Slovenia to South-Eastern Europe and Near East for all transports in the tenth pan-European corridor (Salzburg-Ljubljana-Zagreb-Beograd-Niš-Skopje-Veles-Solun). Storitvi podpiramo z lastno mrežo distribucijskih centrov in s sodobnim informacijskim sistemom. Poslovanje na področju storitve "24 ur" sta zaznamovala predvsem močna konkurenca na trgu majhnih pošiljk in porast cen goriva.

Intereuropa zagotavlja redne uvozne in izvozne zbirne linije z vsemi evropskimi državami. Zbirni promet je v lanskem letu dosegel izjemno dobre rezultate, predvsem zaradi uspešnega prilagajanja ponudbe blagovnim tokovom in večje blagovne menjave Slovenije s tujino ter okrepitev blagovnih tokov z državami bivše Jugoslavije.

**nova storitev na področju paketne distribucije "Intereuropa Express"**

These two services are supported by our own network of distribution centres and advanced IT-system. The operation in the "24 hour" service area was marked primarily by tough competition on the market of small consignments and price increase of fuel.

Intereuropa offers regular import and export groupage lines to all European countries. Last year groupage services achieved the outstanding results predominately attributable to successful adapting of our offer to goods flows and Slovenia's fostered foreign trade and reinforced goods flows in countries of former Yugoslavia.

Poslovno področje skladiščenje in distribucija je preseglo načrtovane prihodke in beleži rast tako na področju skladiščenja kot tudi na področju distribucije. Prihodki iz obeh segmentov dejavnosti so v letu 2000 dosegli 11-odstotno rast.

Skladiščenje in distribucija zajemata skladiščenje blaga, pripravo blaga za nadaljnjo odpremo, carinsko posredovanje, prevoz blaga in distribucijo do končnih odjemalcev. Skladišča, opremljena z vso potrebno mehanizacijo za pretovarjanje in izvajanje povezanih storitev, nam zagotavljajo infrastrukturno podporo pri prevzemanju in upravljanju logističnih funkcij strank. Ta infrastruktura omogoča izvajanje celovitih logističnih projektov za potrebe domačih in tujih trgovskih in proizvodnih podjetij.

### Cestni transport blaga

Intereuropa ima sodobni vozni park, ki ustreza standardom prevozov v Evropski uniji. Intereuropina vozila so opremljena s sistemom za satelitsko spremljavo voznega parka. Dejavnost cestnega transporta blaga podpira delovanje drugih storitev in skupaj z njimi zagotavlja celovito logistično ponudbo. V lanskem letu so stroški goriva naraščali hitreje kot cene teh storitev. Kljub temu so se prihodki v primerjavi z letom 1999 povečali za 19 odstotkov, povečalo se je tudi število opravljenih prevozov in prevoženih kilometrov.

posodobili smo vozni park in opremili vozila z naj sodobnejšo telekomunikacijsko opremo

### Road Transport

Intereuropa has fleet of vehicles in conformity with transportation standards applied in the European Union. The Intereuropa's vehicles are equipped with the GPS system for satellite monitoring of entire fleet. **4.3 KADRI**

Na področju razvoja kadrov smo v koncernu Intereuropa v letu 2000 delovali v smeri :

- izpopolnjevanja obstoječih znanj zaposlenih,
- pridobivanja novih znanj s področja logistike,
- rasti števila najstrokovnejšega kadra.

Zadovoljstvo zaposlenih preverjamo z merjenjem organizacijske klime, v letu 2001 pa bomo veliko pozornosti namenili razvoju sistema nagrajevanja, ki bo temeljil na doseženih rezultatih in upošteval različne izhodiščne položaje posameznih enot, kar je po dosedanjih ugotovitvah potrebno najbolj nadgraditi.

K razvoju sposobnosti zaposlenih največ prispevajo

**4.3 HUMAN RESOURCES**

Efforts in order to improve the efficiency of our staff within the Intereuropa Group focused on three main directives:

- follow-up of the existing knowledge,
- improvement of specialized knowledge in logistics area,
- expected growth of highly qualified staff.

The satisfaction of employees is monitored by measuring climate of organizational relation. In 2000 our attention will be paid primarily to the development of premium wage system, which will be based on the results achieved, taking into account various starting points of individual operations that need to be upgraded predominantly.

oblike izobraževanja, s katerimi pridobivajo specialistična znanja, opisana pa so v poglavju kadri. Za povečanje pripadnosti in krepitev neformalnih vezi smo v letu 2000 organizirali "Intereuropiada" - 16. športno-družabno srečanje, ki se ga je udeležilo 550 zaposlenih v koncernu.

#### 4.3.1 Gibanje zaposlenih

V koncernu Intereuropa smo število zaposlenih v letu 2000 povečali za 65 delavcev, in sicer z 2.103 na 2.168.

Medtem ko se je v zadnjih letih zaradi prestrukturiranja poslovanja število zaposlenih v matični družbi postopoma nižalo, je ostalo število zaposlenih v povezanih družbah nespremenjeno.

Največji vpliv na končno število zaposlenih pa je imel nakup nove družbe STC Celje d.d.

Skupno število zaposlenih Total number of employees	2.103	2.168	65

The development of employees' capacity is mainly attributable to the educational system providing expert knowledge mentioned in Paragraph Human Resources thereof.

In order to promote loyalty and sociability among the employees we organized "Intereuropiada" - 16th Sport and Social Gathering where 550 employees took part in the year 2000.

#### 4.3.1 Trends of employment

During the year 2000 Intereuropa Group employed 65 new employees what resulted in the increased number of employees from 2,103 to 2,168.

In recent years the number of employees in the parent company was reduced due to operation restructuring while that in the associated companies remained unchanged.

The acquisition of the new company STC Celje d.d. impacted directly the number of employees.

**4.3.2 Izobrazbena struktura**

Izobrazbena struktura kadrov od VI. stopnje dalje se v koncernu Intereuropa nenehno izboljšuje, kar dosegamo z zaposlovanjem visoko strokovnih kadrov in s pridobivanjem višje izobrazbe že zaposlenih delavcev.

V matični družbi smo uspeli povečati delež najbolj strokovnih kadrov z 20,9% v letu 1999 na 21,7% v letu

2000. S tem smo skoraj izpolnili srednjeročni cilj, ki smo si ga zastavili do leta 2002 in predvideva 22% najstrokovnejših kadrov. Dvig izobrazbene strukture se že odraža v boljših poslovnih rezultatih, vsekakor pa so vplivi izobrazbe dolgoročnega značaja.

**4.3.2 Educational structure**

The educational structure of highly qualified staff (from VI. level of education onwards) is steadily improving through employing highly qualified staff and obtaining higher level of education at the group level.

In the parent company we coped with increasing of the highest qualified staff from 20.9 in 1999 to 21.7% in

the year 2000. In terms of plan we nearly met the objectives of our medium-term plan adopted up to the year 2002 to achieve 22% of highly qualified staff. The growth of the educational structure has already shown progress in operational results improved, but these impacts will have long-term effects.

**we increased a share of highly qualified staff**

#### 4.3.3 Usposabljanje

V letu 2000 smo usposabljanje zaposlenih aktivno izvajali predvsem na področju pridobivanja funkcionalnih znanj s področja logistike in kakovosti (predvsem računalniška podpora kakovosti); čemur smo namenili 37 mio SIT (0,1% od čistega prihodka prodaje). Konec leta smo začeli drugo interno šolo poslovne logistike, ki jo nadaljujemo v letu 2001 in jo načrtujemo tudi za menedžerski nivo.

#### 4.3.3 Training

In the year 2000, the active training courses were offered to our staff aimed at improving their skill and knowledge in the fields of logistics and quality (quality computer-aided system, mainly); we allocated 37 million SIT (0.1% of net operating profit) to training. At the end of the year 2000 we followed-up our second "Operating logistics" in-company training school. This year, we are planning to organize this type of training with courses at the managerial level.

Naravnani smo k sodelovanju z družbenimi skupnostmi v vseh okoljih, v katerih ustvarjajo naše družbe in zaposleni, na področjih kulture, šolstva, zdravstva in športa.

V letu 2000 smo med ostalimi aktivnostmi sklenili donatorsko pogodbo s Kliničnim centrom v Ljubljani za nakup ultrazvočne aparature za žilno diagnostiko na

Kliniki za kardiologijo. Prispevali smo za gradnjo nove stavbe Pravne fakultete in pridobili naziv "Zlati donator Pravne fakultete Univerze v Ljubljani". Ob koncu lanskega leta smo z donacijo priskočili na pomoč Krajevni skupnosti Log pod Mangartom za prizadete prebivalce ob plazju pod Mangartom.

## **6.1 POJASNILA K IZKAZOM SKUPINE INTEREUROPA**

V Skupino Intereuropa so bili na dan 31. 12. 2000 vključene matična družba Intereuropa d.d. ter 8 povezanih družb, v katerih ima Intereuropa d.d. večinski vpliv. V postopku uskupinjevanja skupin so bili v obravnavanem obdobju, glede na primerjalno, prvič vključeni računovodski izkazi povezane družbe STC Celje, d.d.

### **6.1.1 Izkaz stanja**

**Bilančna vsota** skupine je na dan 31. 12. 2000 znašala 39,4 mld SIT in se je glede na 1. 1. 2000 povečala za 23% oz. 7,5 mld SIT. Razlog je v aktivni vlogi investiranja v opredmetena osnovna sredstva in prevzem družbe STC Celje, d.d.

**Gibljiva sredstva** so večja za 19%, toda svojo udeležbo v sredstvih so zmanjšala za 2 odstotni točki. V okviru gibljivih sredstev izstopajo kratkoročne terjatve iz poslovanja, ki so večje za 9%.

## **6.1 EXPLANATIONS TO THE STATEMENTS SHEET OF INTEREUROPA GROUP**

On 31 December 2000 the Intereuropa Group encompassed the parent company Intereuropa d.d. and eight associated companies, where Intereuropa d.d. provided the majority influence. In these processes of group establishment the accounting reports of the associated company STC Celje d.d. were included for the first time.

### **6.1.1 Consolidated balance sheet**

**The assets** of the group as at 31.12.2000 amounted to 39.4 billion SIT and increased by 23% or 7.5 billion SIT compared to 1.1.2000. The reason is attributable, both to the active investment role in tangible fixed assets and the take over of the company STC Celje d.d.

**Current assets** increased by 19%, but their participation was reduced by 2 per cent. In the frame of current assets short term operating receivables are predominant and show an increase of 9%.

Na strani **obveznosti do virov sredstev** ima največjo udeležbo postavka **kapital**. V strukturi obveznosti predstavlja 60%, kar ustreza deležu stalnih sredstev v vseh sredstvih.

#### 6.1.2 Izkaz uspeha

V letu 2000 smo spremenili način vodenja čistih prihodkov od prodaje, kar je vplivalo na višino izkazanega kosmatega donosa. Po novem se od fakturirane realizacije odštejejo le carine, ostali založeni (prefakturirani) stroški pa se pojavijo v postavki stroškov blaga, materiala in storitev. Tak način vodenja prihodkov nima vpliva na dobiček iz poslovanja.

Skupina Intereuropa je v obravnavanem obdobju dosegla 33,2 mld SIT **kosmatega donosa iz poslovanja**, kar pomeni za 22% več kot v letu 1999 oz. za 6 mld SIT več. To je rezultat boljšega poslovanja tako matične družbe kot povezanih družb.

Doseženi **dobiček iz poslovanja** skupine znaša 1.498 mio SIT in je za 7 odstotkov večji od lanskega. Manjšo

A majority in **liabilities** represents the **capital**. In the structure of liabilities it represents 60% corresponding to a share of fixed assets in all the company's assets.

#### 6.1.2 Consolidated statement of income

In the year 2000 we changed the management of net sales revenue what affected the value of gross operating profit. Through a new method customs duties are deducted from invoiced sales only, while other rebilled costs are shown in the item related to costs of material, goods and services. This method of income management has no impact on the operating profit.

The **gross operating profit** of the Intereuropa group aggregated 33.2 billion SIT i.e. an increase of 22% compared to 1999 respectively 6 billion SIT. This is a result of improved operation of the parent company and associated companies.

The Group's **operating profit** achieved was 1,498 million SIT being 7% higher than that of the previous year. We can ascertain a lower growth of expenses in

rast stroškov ugotovimo pri amortizaciji in stroških dela, medtem ko so stroški materiala in storitev nad rastjo kosmatega donosa, na kar so vplivali začetni stroški delovanja nove storitve "Intereuropa Express" ter povečanje stroškov goriva in stroškov podizvajalcev v RC Filiali Transport.

#### 6.1.3 Izkaz finančnih tokov

Aktivno investicijsko dejavnost dokazujejo tudi številke, saj imamo opraviti s čistimi odtoki iz poslovne in investicijske dejavnosti v višini 885 mio SIT, kar smo morali popraviti z dejavnostjo financiranja, kjer smo si s povečanjem dolgoročnih rezervacij in kratkoročnim financiranjem v višini 3.122 mio SIT zagotovili potrebna sredstva.

the depreciation of intangible assets and tangible fixed assets as well as labour costs, while costs of material and services remain above the growth of gross operating profit, what resulted from the initial operational costs of "Intereuropa Express" new services and increased costs of fuel and subcontractors in the Branch Office Transport.

#### 6.1.3 Consolidated statement of changes in financial position

The active investment activities are evidenced by figures, as we deal with net outflows from operational and investment activities amounting 885 million SIT what we needed to adjust by financial activities through increasing long-term provisions and short-term investment in the amount of 3,122 million SIT in order to provide our funds needed.

Off-balance Sheet Assets show assets and liabilities to the Slovene Development Company d.d.:

**6.2.2 Izkaz uspeha**

V podjetju uporabljamo drugo različico (nemško varianto) izkaza uspeha.

V letu 2000 smo tako kot pri Skupini Intereuropa spremenili način prikazovanja čistih prihodkov iz prodaje. Le-ti znašajo 27 mld SIT in kažejo v poslovnem letu 2000 18,4% nominalni porast; predstavljajo pa razliko med fakturirano realizacijo in založenimi stroški carin.

**Kosmati donos** iz poslovanja je glede na lansko leto porasel za 18%, predvsem zaradi višjih čistih prihodkov iz prodaje.

**Stroški blaga, materiala in storitev** so v letu 2000 porasli za 23% glede na lansko leto. Največjo rast kažejo stroški storitev, in sicer 24% oz. 3.434 mio SIT, med katerimi so tudi prefakturirani stroški (razen carin), ki so vezani na storitveni proces in katerih delež v omenjenem povečanju je 68%.

Glede na lansko leto so **stroški dela** porasli za 11%.

**6.2.2 Statement of income**

Our company uses the second variant (the German one) for the Statement of income.

In the year 2000 we changed the accounting methods of net sales revenues. These amounted 27 billion SIT and showed a nominal increase of 18.4% in the year 2000; they are represented by the difference between the invoices realized and customs costs prepaid.

**Gross operating** profit increased by 18% compared to the previous year mainly due to higher net sales revenues.

In 2000 **Costs of material, goods and services** increased by 23% compared to the previous year. The highest increase is reported in costs of services amounting to 24% or 3,434 million SIT together with rebilled costs (other than customs duties) being associated with service process and represented in the mentioned increase by 68%.

Vsebujejo plače (rast je za 1 odstotno točko višja od rasti stroškov dela), ki pripadajo zaposlenim, v kosmatem znesku, ne glede na poslovni izid, ter tisti del dajatev za socialno in pokojninsko zavarovanje, ki ga družba dodatno obračunava glede na te plače. Sem se všttevajo tudi nadomestila plač, ki v skladu z zakonom, kolektivno pogodbo ali pogodbo o zaposlitvi pripadajo zaposlenim za čas, ko ne delajo, kolikor bremenijo družbo. Naravo plač imajo tudi avtorski honorarji, pogodbe o delu, v kosmatih zneskih, pa tudi dajatve, ki bremenijo izplačevalca-družbo (posebni davek na določene prejemke, prispevki za socialno varnost, ...).

**Amortizacija neopredmetenih dolgoročnih sredstev in opredmetenih osnovnih sredstev**

Amortizacijo izvajamo posamično v okviru najmanjše enote (izpostave). V letu 2000 beležimo 9% porast glede na preteklo leto predvsem zaradi aktiviranj novih opredmetenih osnovnih sredstev v tem letu. Uporabljamo metodo enakomernega časovnega odpisa. Med letom knjižimo začasno amortizacijo, medtem ko na koncu leta opravimo dokončni obračun amortizacije in revalorizacije omenjenih sredstev.

**Labour costs** were up by 11% in comparison with last year. These costs comprise wages (growth ratio is higher by one per cent compared to that of labour costs) pertaining to employees in gross carrying amount, notwithstanding the operating results and that part of costs related to social insurance and pension plan charged additionally to these wages by the company. There are also included various compensations of employees when absent from work in conformity with the Employment Protection Law, collective wage agreement or contract of employment, in case they should be borne by the company. Besides royalties, work contracts in gross amounts including fees to be covered by the paymaster-company (special tax on determined incomes, social security contributions etc.) are also considered as wages.

**Depreciation of intangible assets and tangible fixed assets**

The depreciation is carried out separately within the smallest unit. In the year 2000 we record an increase of 9% compared to the previous year due to activation of new tangible fixed assets in this year. We use the time

Glede na preteklo leto so se **odpisi obratnih sredstev** povečali za 63%; največji delež le-teh (93%) predstavljajo oblikovani popravki vrednosti terjatev po sklepih organa upravljanja in podjetij v stečaju, kar je posledica uveljavljenega zakona o finančnem poslovanju. Preostalih 7% predstavljajo popravki vrednosti rednih terjatev, ki niso poplačljive. V primerjavi s preteklim letom opazimo obratno situacijo.

method of depreciation. During the year interim depreciation bookkeeping is used, while at the end of the year an accumulated depreciation and assets revaluation is performed.

**Current assets write-offs** increased by 63% compared to the previous year; the major share of the same (93%) is represented by the adjusted receivables pursuant to the resolutions of management and companies in bankruptcy proceedings, resulting from the implementation of Law on Financial Operations. The remaining 7% is represented by adjusted operating receivables being uncollectable. The situation is just the opposite compared to the previous year.

**Drugi odhodki poslovanja** so razne dajatve, ki niso odvisne od poslovnega rezultata (prispevek za onesnaženo vodo, prispevek za stavbno zemljišče, prispevek za gospodarsko zbornico, razne članarine združenjem in kazni za gospodarske prestopke), štipendije dijakom in študentom ter drugi stroški (npr. stroški ustanavljanja predstavništav ipd.). V letu 2000 so v primerjavi s preteklim letom padli za 22%.

#### **Prihodki iz naslova deležev iz dobička podjetij v skupini**

Prihodki iz udeležbe v dobičku povezanih družb so večji za 67% glede na preteklo leto, kar lahko pripišemo pridobitvi nove družbe STC Celje, d.d., in povečanju lastništva v družbah Intereuropa Zagreb, d.o.o., in Intereuropa Split, d.o.o., ter dobrega poslovanja družb Intereurope.

**Other operating expenses** are various duties which do not depend on the operating results (contribution for waste water, building land, Chamber of Economy, various fees for associations and penalties for economic offence), scholarships granted to pupils and students and other costs (e.g. costs related to establishment of representative offices etc.). In 2000 these expenses were reduced by 22% in comparison with the previous year.

#### **Revenues from investments in group members**

The revenues from investment in group members are 67% higher when compared to the previous year. This can be credited to the association with a new company STC Celje d.d. and increased ownership in the companies Intereuropa Zagreb d.o.o. and Intereuropa Split d.o.o. as well as to improved operations by the rest of group members.

#### **Prihodki iz obresti in drugi prihodki financiranja**

V letošnjem letu so se prihodki iz naslova obresti zmanjšali za 4% .

#### **Odpisi dolgoročnih in kratkoročnih finančnih naložb**

V letošnjem letu so večji za 295 mio SIT glede na lansko leto, predvsem zaradi večjih oblikovanih popravkov vrednosti vrednostnih papirjev (78 mio SIT) in večjega popravka vrednosti naložbe v družbo Cimos International, d.d., v višini 179 mio SIT.

#### **Stroški obresti in drugi odhodki financiranja**

V letu 2000 so se povečali za 62% glede na preteklo leto, predvsem na račun odhodkov obresti, ki so porasli za 129%. Na drugi strani pa so negativne tečajne razlike in drugi odhodki financiranja, kamor uvrščamo

tudi revalorizacijski primanjkljaj (36 mio SIT), porasli za 51%.

**Dobiček iz rednega poslovanja** dobimo, če kosmatemu donosu iz poslovanja odštejemo vse stroške in odhodke, ki so izkazani po naravnih vrstah, dodamo prihodke iz naslova deležev iz dobička podjetij v skupini, prihodke iz obresti in drugih prihodkov iz financiranja ter odštejemo odpise dolgoročnih in kratkoročnih finančnih naložb ter stroške obresti in drugih odhodkov od financiranja. V letu 2000 smo dosegli dobiček iz rednega delovanja v višini 1.469 mio SIT, kar je 21% manj kot v letu 1999, zaradi večjega lanskega doseženega dobička iz financiranja ter višjih stroškovnih kategorij v letu 2000.

**Izredni prihodki** so porasli za 19%, predvsem zaradi izterjanih odpisanih kreditov Cimos International, d.d., kar je posledica postopka prisilne poravnave omenjene delniške družbe, kjer je bil na osnovi sporazuma o konceptu ter izvedbi finančne konsolidacije poslovnega sistema Cimos ter reprogramiranja in konverziji terjatev v delniški kapital in druge oblike sredstev (terjatve,

#### **Revenues from investments in group members**

The revenues refer to the payments of dividends. In this year these revenues increased by 11% due to higher amounts of shares (predominantly dividends of Banka Koper d.d., Luka Koper d.d., Merkur d.d., Color d.d., Droga d.d., Comet d.d. etc.).

#### **Interest revenues and other financial revenues**

In 2000 the interest revenues fell by 4%.

#### **Long-and short-term investments write-offs**

In 2000 they increased by 295 million SIT, compared to the previous year primarily due to adjusted value of securities (78 million SIT) and major value adjustment of investment in the company Cimos International d.d., amounting to 179 million SIT.

#### **Interest and other financial expenses**

In 2000 they increased by 62% compared to the previous year mainly as a result of interest expenses, which increased by 129%. Besides the negative difference of exchange and other financial expenses including revaluation loss (36 million SIT) rose by 51 %.

**Profit from ordinary activities** is aggregated through the deduction of all costs and expenses shown according to categories from gross operating profit by adding revenues from investment in group members, interest revenues and other financial revenues and by deducting long- and short-term investment write-offs and interest and other financial expenses. In 2000 the net operating profit totalled 1,469 million SIT and was reduced by 21% compared to 1999 due to the higher operating profit of the previous year achieved from financing and increased expenses in 2000.

**Extraordinary income** increased by 19%, predominantly due to written off loans of Cimos International d.d. that were paid off by enforcement procedure of the above-said joint stock company. In accordance with the agreement on conversion of our written off claims and the concept as well as implementation related to the consolidation of Cimos operational system in line with reprogramming and conversion of claims in share capital and other funds (receivables, subordinated credit, credit), a final decision to convert our written off claims was adopted.

subordinirani kredit, kredit) dosežen dogovor o konverziji naših odpisanih terjatev.

Tudi postavka pozneje ugotovljenih prihodkov preteklih let je višja od lanske za 19%, predvsem zaradi vračil davka na dodano vrednost.

**Izredni odhodki** so se zaradi vpliva lanskoletnega oblikovanega popravka vrednosti terjatev iz naslova lastninske revizije v višini 184 mio SIT v poslovnem letu 2000 glede na preteklo leto zmanjšali za 38%. Če izločimo omenjeni vpliv, gre za 69% povečanje izrednih odhodkov na račun višjih odhodkov iz naslova prodaje osnovnih sredstev, ki so porasli za 39%.

V letošnjem letu je naša družba dosegla 2.035 mio SIT **celotnega dobička**, kar je za 7% manj kakor v preteklem letu.

Višja **davčna obveznost** za 76% izvira iz višje davčne osnove, kljub upoštevanju letošnje 40% investicijske olajšave, ki znaša 543 mio SIT (nižja za 202 mio od lanske). Največji vpliv ima zaradi izplačila dividend v letu 2000 poraba investicijske olajšave leta 1999.

Later ascertained income from previous years also increased by 19% compared to the previous year due to V. A.T. refund.

In 2000 **extraordinary expenses** were reduced by 38% compared to the previous year due to adjustment of receivables from property revision amounting to 184 million SIT. Through elimination of this impact, an increase of 69% is achieved resulting from extraordinary expenses due to higher expenses related to sales of tangible and intangible fixed assets, which rose by 39%.

In 2000 our company aggregated 2,035 million SIT of **total profit**, showing a decrease of 7% compared to the previous year.

The increased **taxes payable** by 76% resulted from a higher tax liability notwithstanding 40% investment allowances amounting 543 million SIT (decrease by 202 million compared to the last year). The investment allowances of 1999 being used have a significant influence due to dividends payout in the year 2000. We

Opaziti je višje davčne obremenitve in nižje olajšave glede na lansko leto.

Če od celotnega dobička odštejemo davčno obveznost, dobimo **čisti dobiček** za leto 2000, in sicer 1.717.626 tisoč SIT.

can notice additional fiscal charges and lower tax allowances compared to the previous year.

The **net profit** of the year 2000 totalling 1,717,626 thousand SIT is earned by deducting taxes payables from the total profit.

### 6.2.3 Izkaz finančnih tokov

V družbi uporabljamo stopenjsko obliko izkaza finančnih tokov.

V letu 2000 je bila investicijska politika zelo aktivna, saj so čisti pritoki pri poslovni in investicijski dejavnosti negativni v višini 644 mio SIT. Glede na preteklo leto smo največ investirali v dolgoročne finančne naložbe, nekoliko manj pa v osnovna sredstva.

Negativne čiste pritoke je dejavnost financiranja popravila s kratkoročnim financiranjem. Zaradi izplačila dividend je prišlo do definciranja na strani kapitala, vendar je bilo na dan 31. 12. 2000 končno stanje denarnih sredstev 440 mio SIT. Glede na lanskoletno stanje je za 5% večje.

### 6.2.3 Statement of changes in financial position

The company uses the degree form of the statement of changes in financial position.

In 2000 the investment policy was very dynamic as the net inflows from operating and investment activities are negative amounting to 644 million SIT. We diversified largely our long-term financial investments, while the investments in tangible and intangible fixed assets showed a slight decline.

The negative net inflows were adjusted through short-term financing by additional financial activities. The payoff of dividends resulted in disinvestments of capital, but we ended the year with the position of 440 million SIT as at 31.12.2000. Considering that of the previous year it is increased by 5%.
